 2025 Hydrant and Water Main Valve Replacements

Project Number:	2025-004892	Site Address:	Crossfield T0M 0S0, AB
Owner Solicitation #:		Owner:	Town of Crossfield
Close Date:	Fri, Sep 19, 2025, 02:00 PM		
Submit Bids To:	Email submission to... megans@crossfieldalberta.com	Addendas:	1

No site meetings scheduled

Scope of Work:

The Town of Crossfield has developed a program to replace aging and non-functional fire hydrants throughout the community. As part of this initiative, the Town plans to replace two (2) fire hydrants that have been identified as requiring immediate attention due to wear, damage, or operational concerns this year. Specifications must follow the Calgary 2025 Standard Specification for Waterworks Construction.

The contractor shall:

- ☐ Remove and dispose of the existing fire hydrant and gate valve.
- ☐ Supply and install a new dry barrel fire hydrant and hydrant riser (if required - include as deletable item).
- ☐ Supply and install a new gate valve.
- ☐ Supply and install associated components:
- ☐ Valve standpipe / valve riser
- ☐ Rock guard / valve box
- ☐ Supply and pour concrete for required thrust blocks (Refer to Diagram 4 - City of Calgary Standard Specifications for Waterworks Construction)
- ☐ Supply a minimum of 2 feet of bedding material beneath all installed piping and hydrant.
- ☐ Supply and install backfill material (Refer to Diagram 39A - City of Calgary Standard Specifications for Waterworks Construction) Back-fill Material Bedding and pipe zone back-fill shall conform to 504.03.00. The back-fill material above the pipe zone (i.e., 300mm above the top of the pipe to the pavement subgrade) shall conform to the requirements of the Standard Specifications Roads Construction. No frozen back-fill material will be permitted.
- ☐ Curb and pavement repair as required.

Close Date:	Tue, Sep 09, 2025, 02:00 PM		
Submit Bids To:	Online Submissions Only	Addendas:	4
Site Meeting Date:	Wed, Sep 03, 2025, 09:00 AM	Site Meeting Attendance:	OPTIONAL

Site Meeting Notes: 2587 Aurum Road Wednesday September 3rd, 2025 Time : 9:00 am RSVP and Contact: Thomas Skowronski tskowronski@epcor.com PPE Required : Safety glasses, Safety boots and HI Vis Vest

Scope of Work:

This project is located on 2587 Aurum Rd NE in Edmonton, Alberta in EPCOR's Fleet Facilities yard. The existing facilities yard contains a mix of both gravel and paved surfaces. The gravel areas are currently experiencing drainage issues, including ponding and icing. The objective of this project is to address these drainage concerns by regrading the gravel areas to improve surface drainage and by paving the existing gravel surfaces, including tie-ins to surrounding paved areas where required to create a consistent finished surface. Minor modifications of the existing storm infrastructure will also be required. The facilities yard will be paved in different phases over multiple years, this contract outlines only the scope of work for the phase 1 portion. EPCOR makes no representations or warranties regarding the accuracy or completeness of the information contained in this RFP. The Proponent is responsible for making its own evaluation of information and data contained in this RFP and in preparing and submitting its Reply

Awarded [2025 Sanitary Main Replacement Athabasca Crescent & Saskatchewan Street](#)

Project Number:	2025-004644	Site Address:	Athabasca Crescent & Saskatchewan Street Crossfield T0M 0S0, AB
Owner Solicitation #:		Owner:	Town of Crossfield
Close Date:	Fri, Aug 29, 2025, 02:00 PM		
Submit Bids To:	Email submission to... cmungwakuzwe@allnorth.com	Addendas:	1
No site meetings scheduled			

Scope of Work:

The base scope of the Work comprises of the following sanitary sewer replacement and all associated rehabilitation within the project limits along Athabasca Crescent & Saskatchewan Street:

- 1. Removal and replacement of approximately 170 m of 200 mm diameter sanitary sewer main. All existing sanitary manholes within the work area are to be removed and replaced with new structures.
- 2. Sanitary service connections to adjacent properties that are tied into the affected sewer main shall be replaced up to the property line. The Contractor is responsible for providing and maintaining temporary sanitary bypass systems as needed to ensure uninterrupted service throughout the duration of the construction.
- 3. Surface restoration including the removal and reconstruction of asphalt pavement and granular base, along with the removal and reinstatement of concrete curbs, gutters, and sidewalks where impacted by the work. A 30 mm asphalt mill and overlay shall be carried out to ensure a uniform and consistent final asphalt surface for areas within the scope of work but outside of the trenching.
- 4. All disturbed areas, including residential driveways and landscaped surfaces, shall be restored to their original condition and better.

Project Number:	2025-004640	Site Address:	Lethbridge County T1J 4E4, AB
Owner Solicitation #:		Owner:	Lethbridge County
Close Date:	Wed, Sep 03, 2025, 02:00 PM		
Submit Bids To:	Email submission to... snunes@lethcounty.ca	Addendas:	2

No site meetings scheduled

Scope of Work:

Lethbridge County (hereafter referred to as "the County" or "County") is seeking proposals from qualified proponents for lining of the sanitary sewer pipeline in Shaughnessy. The County intends to award the RFP to one vendor. The contract will be for the 2025 season, all work needs to be completed by December 15, 2025. The current 200mm diameter VCT piping has degraded, it has been determined that lining is the preferred method to repair the sanitary sewer pipeline in the affected areas. The County intends to award the lining of approximately 878m to a primary proponent.

No site meetings scheduled			
Scope of Work: PROJECT BACKGROUND: Crescent Falls Provincial Recreation Area (PRA) underwent infrastructure refurbishment over the course of 2022 to 2024. After these upgrades were completed and the site opened to the public in the summer of 2024, (Central Region) Parks Division identified a need for additional site enhancements based on public use. Operations has requested the addition of a guardrail barrier to one section of the viewing structure to mitigate public access concerns as well as the replacement of the existing maintenance access hatch with a lighter-weight alternative. PROJECT OBJECTIVE: The work aims to enhance public safety by modifying the existing viewpoint structure. • 1. All work shall be in accordance with all local and provincial codes and regulations. All work shall be performed by qualified trades workers, tested and under warranty for a period of one (1) year from acceptance date of work. • 2. The Contractor shall provide all labour, materials, tools, equipment and services including the transportation necessary to complete the work. The intent is that the Contractor provides a complete job. Demolition and disposal costs are to be included in the Contractor’s quote. Site is to be clear of all debris upon completion of demolition work. • 3. The Contractor shall be responsible for all damages to the structure or site as a result of this work, activities of this work and activities of their employees and/or subcontractors or their negligent security arrangements. Damages shall be repaired to pre-construction conditions or better at Contractor’s own expense. • 4. All shop drawings and materials shall be as specified and formally approved by the project’s structural engineer and Alberta Parks before Contractor commences work. The costs of any changes affecting other disciplines, including approved alternatives, shall be included in the bid.

Awarded [Transportation of Contaminated Soil](#)

Project Number:	2025-004467	Site Address:	Taber T2G 1T2, AB
Owner Solicitation #:		Owner:	MD of Taber
Close Date:	Thu, Aug 28, 2025, 02:00 PM		
Submit Bids To:	Email to: cambler@mdtaber.ab.ca	Addendas:	2

No site meetings scheduled

Scope of Work:

The Municipal District of Taber is inviting quotations from qualified trucking contractors for the transportation of contaminated soils from our Operations Building located at 6301 52nd Street, Taber to the Newell Regional Landfill.

Scope of Work:

- The MD of Taber construction crew will be responsible for loading the trucks at the site. An estimated total of 3,200 cubic meters or 6100 tonnes is expected to be removed.
- The successful bidder will be responsible for transporting the loaded contaminated soils to the Newell Landfill. On the return trip, the successful bidder will load clean soil from a Gravel Pit (Reti Pit located at NW5-11-16 W4) and return to 6301 52nd Street, Taber. Scale tickets must be maintained throughout the project.
- All trucking must comply with applicable environmental and transportation regulations, including the Transportation of Soils Contaminated with Flammable Liquids.
- Operating hours for loading at the contaminated site will be between 7:00am – 5:00pm, Monday – Friday.
- Newell Landfill operating hours are between 8:00am – 4:00pm Monday to Friday.

Project Number:	2025-004466	Site Address:	Medicine Hat T1A 8B4, AB
Owner Solicitation #:		Owner:	Medicine Hat Catholic Board of Education
Close Date:	Fri, Aug 15, 2025, 09:43 AM		
Submit Bids To:	Email: greg.macpherson@mhcbe.ab.ca	Addendas:	No Addendas

No site meetings scheduled

Scope of Work:

The Medicine Hat Catholic Board of Education (‘MHCBE’) is seeking a vendor to provide a Value Scoping and the development of a revised three-year capital plan and ten-year Facilities Plan for the Division. The project will specifically address a Value Scoping for Notre Dame Academy to identify options to address enrollment pressures and identify opportunities to dispose of city owned facilities in the long-term which will necessitate a review and modernization of the MHCBE three-year Capital Plan and ten-year Facilities Plan in accordance with the Alberta Education School Capital Manual for the 2024/25 School Year.

This project would consider the following: 1. Enrollment pressures at Notre Dame Academy and the future of the city owned portion included in the building; 2. The transfer of elementary French Immersion to St. Mary’s school from Ecole St. John Paul II School in Fall 2025; 3. The construction of Holy Trinity Academy scheduled for opening in Winter 2027 for St. Francis Students and Fall 2027 for St. Michaels and St. Mary’s Students 4. The use and programming at St. Mary’s starting Fall 2027; 5. The long-term use or disposition of St. Michael’s School; 6. Consideration of the Area Capacity and Utilization of all schools and the impact on funding and expenses as well as consideration of the Facility Condition of all schools which may impact modernization requirements at schools 7. Consideration of the city and regional birth rates along with migration impacts expected; 8. Desire for enhanced shared athletic training space for the division schools and programs, if possible; 9. MHCBE senior administration to be consulted throughout the project.

Awarded [Roof Replacement at Spruce View Manor \(Gibbons\)](#)

Project Number:	2025-004241	Site Address:	4539 49 St, Gibbons, Gibbons , AB
Owner Solicitation #:		Owner:	Homeland Housing
Close Date:	Thu, Aug 07, 2025, 02:00 PM		
Submit Bids To:	Email submission to jmcleod@homelandhousing.ca	Addendas:	2
Site Meeting Date:	Wed, Jul 30, 2025, 09:00 AM	Site Meeting Attendance:	RECOMMENDED

Site Meeting Notes: A pre-bid meeting will be held on Wednesday, July 30th, 2025 at 9:00 a.m. Alberta Time at Spruce View Manor, 4539 49 St, Gibbons, Alberta. Purpose is to : I. provide bidders an opportunity to familiarize themselves with the Work II. provide bidders an opportunity to familiarize themselves with the existing conditions All prime contract and major subcontract Bidders are strongly advised to attend. Others are invited to attend.

Scope of Work:

Spruce View Manor, located in Gibbons, was built in 1977 and provides housing for 43 lodge residents. The existing roof was re-shingled in 2005 with a conventional 3 tab shingle, but the make and type is failing. There is also one area (central area above laundry services) that has major ice damming issues that require to be corrected. There is an area with membrane roofing that may be included in this roof replacement project dependent upon budget. The pricing of this area will be noted separately on Schedule "A" and not to be included in the total Bid Submission price. We require replacement of the entire roof and to include all new roofing components, roof vents, vent hoods, chimney, fascia and eavestroughing throughout as well as increased insulation to improve ice damming concerns. The eavestroughing replacement will include down pipes with new splash pads and down pipe extensions that can be lifted for lawn maintenance. Review of the attic venting and quantity of attic vents is required to ensure adequate venting.

ELECTRONIC BID SUBMISSION ONLY, shall be received by the Bidding System. Hardcopy submissions not permitted.

Addendas: 3

No site meetings scheduled

Scope of Work:
The Town of Taber (the “Town”) is inviting proposals from qualified consultants to prepare an Area Structure Plan (ASP) for the South East sector of Taber, predominantly industrial area. This will be a new plan, not an update of an existing plan, and will guide the future commercial development of the area and structure the transition to the residential area to the west. The Town of Taber is a community of approximately 9,500 people 50 km east of Lethbridge, Alberta. The town is split from a land use perspective with residential development primarily on the east side of town and industrial on the west side of town. Provincial highways 3 and 36 run through the community and the town serves as a regional hub for retail, agricultural, and oil and gas service industries.

Site Meeting Date:	Mon, Jul 21, 2025, 01:30 PM		
Site Meeting Notes:	Meet at Strathcona Place, 7720 – 108 Street, Edmonton, AB.		

Scope of Work:

Strathcona Place is a 227-unit, nine-storey seniors’ housing facility located at 7720 - 108 Street NW, Edmonton, AB. The facility is owned and operated by GEF Seniors Housing. This project involves the supply and installation of barometric relief dampers in designated stairwells to mitigate excessive air pressure resulting from mechanical ventilation systems and ensure door operability during emergency egress conditions.

The intent of this project is to be a turn-key solution and shall include all necessary work required for the complete installation of relief dampers and associated components. The design specification and drawings were developed by TWS Engineering and include mechanical, structural, and summary of work. The successful contractor will act as Prime Contractor for the project and be fully responsible for construction safety, coordination, and execution in accordance with Alberta legislation.

Project Number:	2025-003685	Site Address:	Charles Clarke Health Clinic High River , AB
Owner Solicitation #:		Owner:	Town of High River
Close Date:	Thu, Jul 10, 2025, 04:00 PM		
Submit Bids To:	Email submission to ... jpimentel@highriver.ca	Addendas:	No Addendas
Site Meeting Date:	Wed, Jul 02, 2025, 01:30 PM	Site Meeting Attendance:	MANDATORY

Site Meeting Notes: Charles Clarke Health Clinic 303 - 9th Avenue SW High River Alberta ** Please register your attendance by June 30, 2025 at 4pm with Jason Pimentel via email to jpimentel@highriver.ca

Scope of Work:

The Charles Clarke Health Clinic building is a two story with basement, LEED certified design and construction and the mechanical system is a conventional system for small buildings.

1. Electrical Preheat Coil Installation Assessment The installation of electrical preheat coils in the intake ducts servicing the Energy Recovery Ventilators (ERVs) is to be evaluated. The successful candidate shall engage a qualified electrical consultant to review the existing power distribution system and confirm the building's electrical capacity to support the addition of preheat coils.

2. Building Management System (BMS) Review The building's current Building Management System (BMS), enteliWEB, provides limited user access. The contractor shall assess the BMS to determine the feasibility of integrating an open-source or more accessible platform. This assessment must ensure the system allows full access to temperature controls and the ability to adjust setpoints as required.

3. Elevate all the Mechanical Systems:

- The system is heated with 2 Camus 300,000 Btuh boilers located in the penthouse mechanical room.
- Located outdoors at grade is a 60-ton Carrier air cooled chiller filled glycol water solution. Glycol is piped to a glycol / water heat exchanger. Water is distributed to fan coils.
- Hot water and chilled water are distributed to 4 pipe fan coils (Fan, cooling coil, heating coil and filter) on each building level.
- Each building entrance has been provided with hot water fan coils.
 - o 4 Pipe Fan Coils
 - o Basement - 4 Fan coils Size B @1, C@3
 - o Main floor - 24 Fan coils Size A@3, B@8, C@5, D@3, E@5
 - o Second floor - 27 Fan coils Size A@6, B@12, C@5, D@2, E@2
- Ventilation to the fan coils is provided via 11 Mitsubishi Energy Recovery Ventilators
 - o Basement - 2 Energy Recovery Ventilators
 - o Main floor - 5 Energy Recovery Ventilators
 - o Second floor - 5 Energy Recovery Ventilators

Site Meeting Date:	Wed, Apr 23, 2025, 10:00 AM	Site Meeting Attendance:	MANDATORY
Site Meeting Notes: Youngstown School 309 3 Ave Youngstown, AB			

Scope of Work:

Design support for construction of 430 m2 Gymnasium, modernizing the old gymnasium to accommodate Industrial Arts shop, gymnasium storage and change rooms which would include washroom facilities. The school site is very large so adding an additional space of 430 m2 for a new gymnasium will not be a concern. Other than the old gymnasium space of 225 m2 which is too small for a K-12 school, the existing gymnasium is in good shape and would welcome the new spaces.
