Patrick Crevolin, P.Eng.

Chief Operations Officer - Scott Builders Inc.

Patrick (Pat) Crevolin is Chief Operations Officer of Scott Builders Inc., an employee-owned general contractor founded in Red Deer in 1971, with full-service offices in Red Deer, Calgary and Edmonton.

Pat has built his 19-year construction career with Scott Builders, growing with the company into his current role on its leadership team. He brings a disciplined, engineering-based perspective to construction operations, working closely with company leadership and project teams to support early planning, consistent execution and clear communication. His focus on aligning people and processes has helped the company deliver quality projects and positive client experiences across a diverse range of markets.

Outside of work, Pat is committed to giving back to his community. He is an active mentor with the Edmonton Region Immigrant Employment Council (ERIEC), helping skilled newcomers build their careers in Canada, and volunteers regularly with Sport Central, which provides sports equipment to Edmonton-area youth in need. Pat also serves as head coach of a U14 ringette team, where he enjoys helping young athletes develop teamwork, confidence and leadership.

Pat is seeking a seat on the Board to contribute his operational experience and practical perspective to the Association, and to help advance initiatives that support its members and strengthen the construction industry in Edmonton and abroad.

Shawn Evans

V*ice President & General Manager – EllisDon Construction Services Inc.*

With more than 20 years in the construction industry, Shawn Evans has built a reputation as a trusted leader who values strong relationships and successful project outcomes. As Vice President & General Manager, he leads EllisDon's Edmonton-region operations, with responsibility for business growth, client relationships, project delivery, and overall performance.

Since joining EllisDon in 2010, Shawn has taken on increasingly senior leadership roles and contributed to some of Edmonton's most significant building and infrastructure projects. He understands the full construction lifecycle and knows that the best results come from working together. By bringing clients, consultants, trade partners, and project teams to the same table, he helps turn ideas into practical solutions that create lasting value for clients and communities.

Shawn believes the construction sector is stronger when clients, contractors, trades, consultants, and vendors work together. Drawing on EllisDon's national reach, he brings practical, innovative ideas to Edmonton that can make a real difference locally. Just as importantly, he maintains an open-door approach—welcoming honest conversations about shared concerns, new opportunities, and the solutions the industry can build together.

Shawn's commitment extends beyond the construction industry. He actively supports local organizations such as Make-A-Wish Canada, Veterans' House Canada, Giants of Africa, and The Mustard Seed, among many others. Whether through volunteering, fundraising, or community involvement, he encourages his teams to give back and help create meaningful change in the communities where EllisDon's people live and work.

Patrick Williams, P.Eng

Director, Special Projects - Bird Construction

Patrick Williams, P.Eng., is Director, Special Projects with Bird Construction in Edmonton. A graduate of the University of Alberta's Civil Engineering program, Patrick has lived and worked in the Edmonton region for nearly 20 years, building a strong understanding of the local construction industry and the people within it.

Patrick currently serves on the Edmonton Construction Association Board of Directors and is seeking election for a second term. During his 2024–2026 term, he has contributed to the Finance & Risk Management Committee, previously chaired the Stakeholder Strategies & Engagement Committee, and supported the Government Relations & Advocacy Committee's work with Alberta Infrastructure and the City of Edmonton.

His participation in both the 2024–2026 and 2027–2029 ECA strategic planning sessions has given him a clear understanding of the Association's vision, core values, and priorities.

Patrick's ECA involvement also includes volunteering with the Young Builders Group from 2017 to 2023, including serving as Chair and supporting the development of emerging industry leaders.

Patrick recently joined the Scientific Advisory Committee of the University of Alberta's Construction Innovation Centre, furthering his commitment to collaboration, innovation, and stronger connections between industry and academia.

If re-elected, Patrick will continue advocating for ECA members, strengthening collaboration with industry and government, supporting workforce attraction and development, promoting innovation and best practices, and advancing a sustainable and competitive construction industry.

Outside of work, Patrick is entering his third year coaching his son Owen's hockey team with the DMHA, reflecting his commitment to teamwork, mentorship, and community.

Megan Barclay

Principal - Prolux Lighting & Controls

Megan Barclay is a Principal at Prolux Lighting & Controls and has spent more than a decade building her career within Alberta's construction and electrical industries. She joined Prolux in 2014 with no construction experience, progressing from order entry through project coordination and sales before becoming an owner.

Beyond her organization, Megan previously served as President of the Edmonton chapter of the Illuminating Engineering Society (IES), participated on the ECAA Social Committee, and helped establish the WILD (Women in Lighting + Design) Edmonton chapter.

As a woman in a traditionally male-dominated industry, Megan is passionate about creating opportunities for women to build meaningful careers. As a business owner and mother, she understands the importance of supporting professional growth alongside life outside of work.

Megan believes strong industries are built through strong relationships. She is passionate about mentorship, developing emerging leaders, and strengthening connections across the electrical and construction community. She believes meaningful change starts close to home by bringing people together, creating opportunities, and helping others thrive.

As an ECA Board member, Megan would bring the perspective of an owner, industry partner, and active volunteer who has built her career from the ground up. Her collaborative, forward-thinking approach reflects her commitment to strengthening a connected, progressive electrical industry and developing its next generation of leaders.

Josh Fisekci

Partner - Elite Construction

Josh Fisekci is a Partner at Elite Construction with 15 years of experience in construction staffing and a strong commitment to Edmonton's construction community. Through Elite's staffing, concrete and civil divisions, he helps connect general contractors and subcontractors with the people and services needed to build our city.

For Josh, construction is a relationship business. His approach centres on understanding contractors' needs, creating opportunities for skilled tradespeople and labourers, and building lasting partnerships through trust and accountability. He believes a stronger industry starts with people who support one another, share knowledge and work toward common goals.

An active member of the Edmonton Construction Association (ECA) since 2017, Josh received the Volunteer Impact Award in recognition of his six years of service with the Young Builders Group (YBG). His involvement has reinforced his commitment to an engaged, collaborative construction community where relationships extend beyond individual projects.

Josh brings a practical workforce perspective and a commitment to helping Edmonton's construction industry thrive. He is passionate about strengthening connections between local businesses and workers, encouraging industry participation, and contributing to the community that Elite is proud to serve.

Daniel McAllister, BCOMM CAIB

Senior Account Executive - HUB Edmonton

An alumnus of the University of Alberta Business School, Daniel has been specializing in the Construction sector since beginning his career at HUB International in 2012, working within HUB Edmonton's Construction Specialties team as a Senior Account Executive. He quickly realized that immersion in the Construction industry was extremely rewarding and fundamental to his career – as such, he's been deeply involved in the ECA and YBG, dating back to the YBG's inception in 2014.

Daniel had the honour of serving for a 3-year term on the ECA Board from 2022 until 2024, and is enthusiastic to continue his service to the ECA and its membership. Daniel has served on the Finance & Risk Management Committee, the Strategies, Stakeholders & Engagement Committee (SS&E), as well as the Career Pathways subcommittee. His duties during his board tenure have included Chairing the SS&E committee, as well as Career Pathways initiatives such as Tools For Schools, Skills Canada, Speaker Series, and an overall focus on bringing the next generation of youth into our fantastic construction industry. Daniel has also served as a Director on the Alberta Construction Association Board from 2024 until present, further expanding his commitment to service in the industry.

The sense of community and connection with other ECA/YBG members has become a crucial part of Daniel's personal and professional development. Daniel has most enjoyed the collaborative nature of the ECA leadership team, working with others to employ the most common-sense, effective solutions possible in regard to objectives and tasks.

With over 14 years of involvement with the ECA, Daniel is honored to run for re-election to the Board of Directors. He seeks your support to continue advocating for the association and its members, working together to implement effective solutions for our beloved industry.
